

Website Design Task 2:

PETER CIANTAR GRIMA

GAME DESIGN STUDENT
CHARACTER: ISTP

"Give a task to a lazy person and they will always find an easy way to do it."

ABOUT ME

I am a 20 year old student from Żejtun with an interest in video game design. I want to create visually and functionally pleasing games and websites. I like to experiment with different tools and programmes to express my innovative and creative ideas. I like to play mostly PC games but I also am interested in things like space travel and physics.

EDUCATION

MCAST COLLEGE OF ARTS, SCIENCE AND TECHNOLOGY

- Website and Game Development
- Graphic Design and IT skills

ADVANCED DIPLOMA IN IT (IGAMING)

- Graduated in 2024
- Currently studying for a Bachelors of Science in Digital Games Development

EXPERIENCE WORK

PROGRAMMING AND GAME ART

2023 / 2024 - Dorado Games

Had the chance to work with Dorado Games as a programmer and UI designer. Worked on creating functional and visually pleasing menu elements while handling bug fixes in some of their games such as "World War 3". Also worked a bit on improving their website.

GOALS, NEEDS, FRUSTRATIONS

- 📍 To create my own video game.
- 📍 To form my own game design team.
- ▶ Needs time and feedback to evaluate work properly.
- ▶ Products to satisfy customers over profit.
- ⊗ Often works spontaneously and dislikes planning.
- ⊗ Easy to lose interest if goals are not met in time.

The majority of the participants were around 18 till 24 years old which is what made me decide the age of my user persona and all the participants were male which is why the persona is also male. 3 out of the 5 participants claimed to be students while one of the remaining 2 were employed full-time.

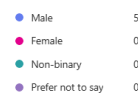

1. What age group do you belong in?

[More details](#)

2. What is your gender?

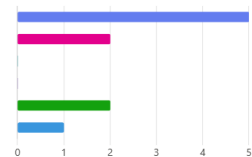

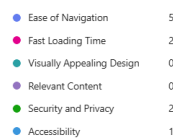

[More details](#)

This made me go through the decision to make the user persona a student with some work experience and that has a lot of creative computer skills since many of the participants also claimed to use the internet for more than 4 hours a day, some claiming to use it all day. I gave the student an interest in good graphic design since many participants said they value easy navigation and quick loading times when visiting websites.

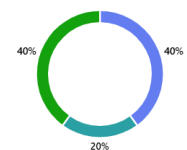

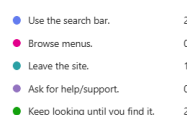

9. What do you think is most important when it comes to website design? (Choose up to 2)

[More details](#)

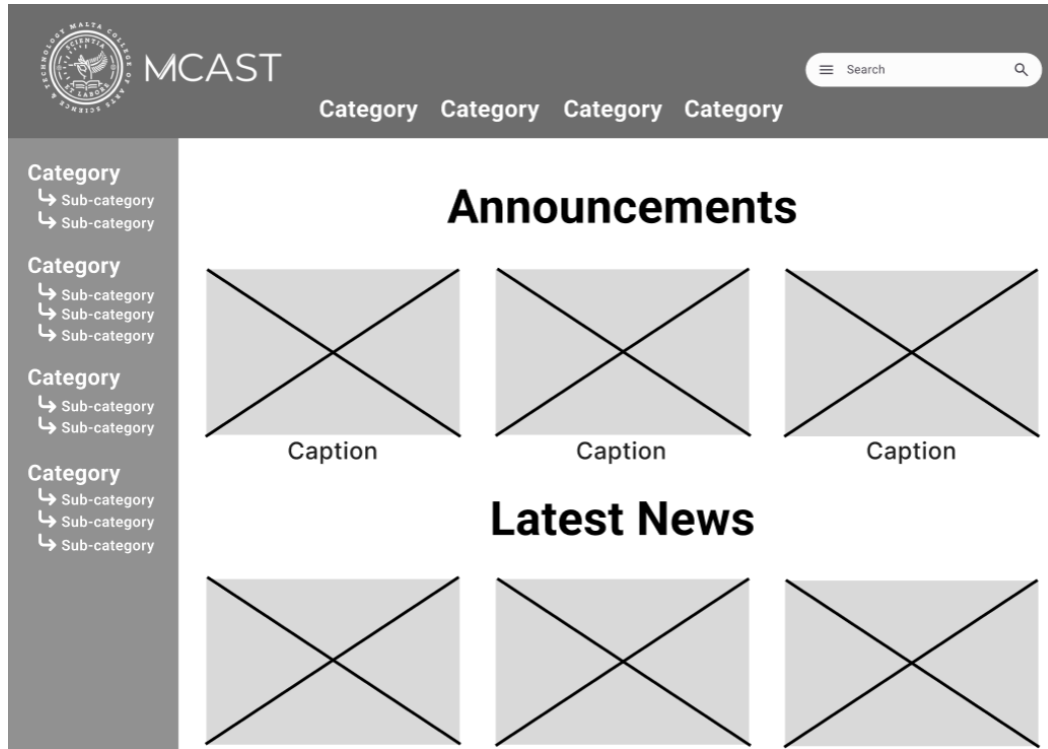

10. When you are unable to find something on a website, what do you do? (Choose up to 2)

[More details](#)
